Summary

CTO and full-stack engineer with 12+ years of experience building and growing SaaS platforms. I've founded and led products that serve over 100k+ users from companies like AXA or BNP Paribas, pitched to investors, and managed teams of 10+ Engineers. I'm skilled in Ruby, Python, Node.js, React, and cloud platforms like GCP and AWS, with recent work focused on **LLMs, LangChain, and AI-first SaaS, financial automation tools**.

Core Skills

- **Engineering & Architecture:** Ruby on Rails, Python, Flask, Node.js, React, GCP, AWS, Docker, Kubernetes, Redis, PostgreSQL, Circle CI, Jenkins, Workato.
 - **AI/ML:** LangChain, Vertex AI, HuggingFace, LLM orchestration, AI copilots
 - **Leadership & Product:** Team building (10+ engineers), fundraising, investor relations, roadmap ownership
 - **Domain Expertise:** Fintech SaaS, Payments, Reconciliation, BNPL, GDPR & compliance, ERP integrations, Mental health SaaS
-

Experience

Co-Founder & Chief Technical Officer (Hands-on Engineer) | [Delfyn](#) (B2B SaaS, Finance AI)

Amsterdam, Netherlands — Dec 2023 – Oct 2025

- Built **AI-driven AR automation platform** (delfyn.co) with ERP integrations, payment orchestration, BNPLs (PragmaGo, Mondu) and reconciliation algorithms.
- Developed **financial dashboards & AI copilots** for accounts receivable specialists.
- Designed IT infrastructure using **GCP, Docker, Redis, PostgreSQL**.
- Hands-on coding in **Ruby on Rails, React Native Web, LangChain**

CTO | [Moodwork](#) (Employee Wellbeing SaaS)

Paris, France — Dec 2016 – Nov 2023

- Scaled SaaS platform to **100K+ active users** from BNP Paribas, ENGIE, AXA or LVMH.
- Led **10+ engineers** (backend, frontend, mobile, data science, devops).
- Migrated platform to **multi-cloud infra (AWS, OVH, Scaleway)**. SLA at 99.9%
- Built **data lake** & analytics pipelines for HR and wellbeing insights.
- As **Data Privacy Officer**, established GDPR compliance & DPIAs.
- Black/Grey Boxing the platform with Orange CyberSecurity and BNP
- Balanced **hands-on coding (Rails, React, Kubernetes, Docker, ArgoCD)** with **strategic leadership**.

Fullstack Developer | [Augment](#) (Augmented Reality SaaS)

Paris, France — 2016

- Built new features & APIs for **AR platform used in e-commerce & retail**.
- Optimized background job processing (Sidekiq, AWS EC2) → improved throughput by 30%.

Software Engineer | [Total Immersion](#) (AR/VR)

Paris, France — 2013 – 2016

- Built an SaaS product for augmented reality medias: www.trylive.com
- Developed and built the documentation of the third API for developers using the total immersion augmented reality technology.
- Developed a Scaling and High Availability strategy with AWS using elastic load balancer, Amazon ec2, auto scaling group, S3 and cloudfront, Redis Sentinel
- Deployed an infrastructure of 30 servers in China in partnership with Yihaodian (YHD).
- Planned the development time using the Scrum methodology, Stand up meeting, poker planning and sprint.
- Technologies: Ruby on Rails, rspec, cucumber, Jenkins, git, jQuery, Redis, sidekiq, capistrano, MongoDB, Elasticsearch.

Earlier Software Engineering Experience (2010–2012)

*Contributed to multiple startups in San Francisco, Paris, and Beijing, building web and mobile applications in **Ruby on Rails, PHP, and Android**. Worked on high-traffic platforms (up to **4.5M users**), implemented analytics dashboards, push notifications APIs, mobile features, and growth/marketing integrations.*

Education

- [SUPINFO](#), Paris (2008–2012)
- International studies: **Hebei University of Technology (China)**, **Dominican University of California (USA)**
